

Getting Out the Vote

Vibrant Communities Saint John is working with Elections New Brunswick and other partners to increase participation of low income voters in the next provincial election. More polling stations, hiring low income residents to work the polls, funding communications materials, community events and barbeques, and engaging low income residents at the door are part of the plans. Look for updates and commentary in the next issue of Around the Block, a community newspaper published for VCSJ's five priority neighbourhoods. Current and past issues of Around the Block are available [here](#).
