

Towards a Vibrant Winnipeg

After consulting with the Winnipeg community, the United Way of Winnipeg has agreed to become the city's convener as it explores the interest of local leaders and service providers in becoming more broadly involved in the Vibrant Communities Initiative.

The Winnipeg United Way has hired a well-known and respected CED leader to lead the organization's CED initiative that is quite interested in strengthening links with Vibrant Communities.

Vibrant Communities will provide technical and financial support to complement ongoing work in strengthening community-based efforts to reduce poverty in Winnipeg - a city with a long history of developing innovative, local responses to poverty and unemployment. Vibrant Communities is looking forward to supporting and learning alongside the Winnipeg community!
